- Education**
- 2006 **Masters in Journalism**  
Carleton University, Ottawa, Canada.  
CIHR Science Communication Fellowship.  
IDRC Journalism Travel Award.
- 2001 **Masters in Biochemistry**  
University of British Columbia, Vancouver, Canada.  
NSERC Graduate Fellowship.
- 1998 **Bachelor of Science, Biophysics**  
University of Guelph, Guelph, Canada.
- Experience**
- 2006-present **Chemical & Engineering News (C&EN)**
- I am one of the magazine's European correspondents, based in Berlin, Germany.
  - I cover research on art and artifacts; the human microbiome; chemical weapons; pheromones & chemical communication; the history of chemistry; and sweat science.
  - I co-host Speaking of Chemistry, a video series about quirky chemistry, such as why truffles smell so great, why most wasabi is fake, and why some scientists sniff artifacts.
- 2003-present **Freelance Journalist & Speaker**
- I have written for *Scientific American*, *Economist*, *Smithsonian*, *New Scientist*, *Globe and Mail*, *Maclean's*, *The Canadian Press* wire, *Canadian Geographic* online and others.
  - I've given invited talks and workshops on the science of art authentication; the history, culture & science of sweat; research behind the Berlin Wall; and science communication.
- 2005 **Canadian Broadcasting Corporation (CBC)**
- Contract chase producer for CBC Television News and Business. I also produced a special series called 'Staying Alive' that examined anti-aging science and business
  - Freelance chase producer and reporter for CBC radio's All in a Day.
- 2004 **Discovery Channel Production Intern**
- Produced 72 science news reports in 5 weeks that aired on the Daily Planet show.
- 2001 - 2003 **Contract Science Writer**
- Ghost-wrote \$20 million in successful grants for UBC's Faculty of Medicine (Vancouver). I produced annual reports and web content for a Canadian research agency (PENACE).
- 1994 - 2001 **Laboratory Researcher**
- As a graduate and undergraduate student, I conducted research in five laboratories at the Universities of B.C., Toronto and Guelph on topics ranging from prostate cancer laser treatment to protein folding. I am the author of two peer-reviewed journal articles.
- Languages, Travel, Interests**
- Languages: Fluent in French. Basic German. Some Spanish.
  - Some destinations: Turkmenistan, Uzbekistan, China, Syria, Egypt, Turkey, Papua New Guinea, Australia, Honduras, Guatemala, Belize, Mexico, Cuba, Russia, Baltics & Balkans.
  - Other skills: Photography, videography, finger puppet acquisition.
